MISSION STATEMENT

To be the best healing arts school we can be. To help those people who wish to help others through the vocation of massage therapy, energy healing, aromatherapy and other bodywork modalities. To help understand the connection of mind, body and spirit in the facilitation of the healing process in a safe and loving space.

PHILOSOPHY

Our philosophy at *Hands on Healing Institute* is that alternative therapies are an integral part of the mind, body and spirit connection. Massage therapy is one of those alternative therapies and our students are trained to understand that connection and their role in the healing process. We give our students the knowledge they need to go out into the world and help others improve their well being. Becoming a massage therapist is a worthwhile, self-enhancing opportunity to earn a living while doing something you enjoy.

CURRICULUM & EDUCATIONAL OBJECTIVES

MT300 MASSAGE THERAPY PROGRAM DESCRIPTIONS:

Anatomy & Physiology: Students will learn the structures and functions of the 11 body systems; how to identify the major muscles, bony landmarks, and joints of the body, and to understand how massage induces the parasympathetic nervous system and contributes to the body's homeostasis.

Business Practices & Marketing: This class gives students the skills needed to begin and promote a successful massage practice. Some of the subjects discussed are: business cards, licensing, places of possible employment, types of clients you would like to work on and much more. This is the class where all your questions are answered.

Chair Massage: Basic techniques of chair massage and a "15 minute" therapeutic chair massage routine will be demonstrated and practiced. Simple business ideas for massage will be discussed and students will learn First Aid tips for chair massage. This modality is becoming highly popular and can be offered on-site at offices, health food stores, marathons, schools, and more.

Health/Hygiene: This class will give the students the knowledge needed to protect themselves and their clients through health and hygiene.

Ethics: Ethics of massage therapy will be studied and discussed. ABMP code of ethics will also be reviewed.

Kinesiology: Kinesiology is the science of human movement, focusing on how the body moves by the actions of muscular contraction, working against the stable platform of bone, acting across joints. In this introductory Kinesiology class, we will study the structure and movement of joints as well as the shape of individual muscles and where and how they attach to the bones. Incorporating the knowledge of the type of joint plus the location of the muscle on the bones, illustrates what movement is possible.

Music & Massage: This innovative class focuses on an important element of a professional massage therapist's practice: the music. Experience the effects of various genres of music on freedom and style of body movement, fluidity, emotion, and memory. Learn invaluable information about how music affects our movement and flow.

The Fascial Web (Structural Bodywork): This class introduces a therapeutic model of bodywork, a category referred to as structural bodywork. It introduces the student to a specialized approach to doing deeper massage work. This work can stand alone as modalities like deep tissue, myofascial release and sports massage or can be integrated into a wellness therapy such as Swedish massage. Benefits can include increased range of motion, ease of movement, improved posture, increased healing of injured areas, and increased athletic performance.

Swedish massage: Massage therapy is an ancient healing art. This course focuses on the power of touch and how massage affects the mind, body and spirit and helps to facilitate the body's healing process. The importance of health & hygiene, indications and contraindications for massage are also studied. The emphasis of the practical training is a 50-minute and an 80-minute, full-body Swedish massage routine. The five basic Swedish strokes are taught: effleurage, petrissage, friction, vibration and tapotement, and their variations. Students not only learn the basics of massage; but also are encouraged to develop their own style. Interrelated topics are also taught during Swedish classes including: meditation as a tool for massage therapists to help in calming the mind and focusing before a session; and breathwork techniques and guided dialogue to expand your capacity for freedom, power, and joy; and, movement awareness, giving you a conscious experience of lasting ease and relaxation in your body. These skills are essential to training and needed in order to help others through massage.

Students are taught proper body mechanics and how to work with less effort and more ease in gravity, in order to stay more centered and flexible. It introduces the practitioner to a specialized approach to doing deeper massage work. Specific skills include advanced use of tools, including a range of angles of fingers, hands, soft fist and ulna to sculpt, shape and stretch connective tissue. This class also refines the practitioner's ability of Listening Touch, focusing on the internal process of the client, deepening the partnership of client and therapist.

Contraindications: This class introduces the student to the contraindications for massage.

Medical Terminology: This class introduces the student to the specific medical terminology (anatomical planes, joint types, range of motion terms) used in all the Anatomy, Physiology, and Kinesiology classes.

INSTRUCTORS

Daniel Baldwin, CMT #27832

Daniel is a practicing attorney. When his wife developed Parkinson's disease, he came to HHI to study and become proficient in the art of massage and other therapeutic modalities to assist his wife with the symptoms from which she suffers. Daniel continues his practice of law and concurrently engages in his practice of treating clients with Swedish Massage, Deep Tissue Massage, Aromatherapy and Craniosacral Therapy.

Alison Plesset CMP # 44093

Alison was drawn to massage therapy for many years prior to pursuing a formal education in the healing arts in 2003. She first came to Hands on Healing to study chair massage and was hooked! She has been practicing chair massage for many years and likes the variety of working in many different locations. Alison is now the Cooperate Liaison for The Kneaded Experience-LA. She also has a thriving private practice that focuses on Deep Tissue, Sports and Pregnancy Massage. Alison greatly enjoys teaching the chair massage portion of the MT500 Program.

Sharon Munatones, CMT #7505

Sharon graduated from the Hands on Healing Institute's CMT Program in 2006 and continued to study while building her private practice and completing the HHI Teacher's Training Program. Sharon loves the mind, body, spirit concept, nature and massage. With 18 years of counseling experience working in the mental health field as a behavioral counselor, with children's programs for the YMCA and for Nino's Earth Centro, an environmental awareness program, she has a realistic understanding of the issues that affect our mind/body/spirit connection in today's world.

Frances Nicolais, LMT, CMT #14157

Frances is one of our original instructors. She has such loyalty to our school; word has it that she has been known to dye her hair purple to match our school color. Frances is also the owner of the KELA-Kneaded Experience LA, a professional chair massage company in operation since 1995. Her passion is myofascial release, which she provides to any willing participant at her office in Montrose. She has developed the Focus on Fascia classes at Hands on Healing and teaches them with as much passion and enthusiasm as any one person can! Frances also teaches the Myofascial Trigger Point classes and has developed (and teaches) the only 100- hour chair massage program in all Los Angeles.

Rosa Rosales CMT, CATMAT #24693

Rosa earned a BS degree in Kinesiology/ Exercise Science in 1998 and began her career as a Personal Trainer who specialized in using exercise to help clients relieve chronic pain. She decided to add massage therapy to help clients get faster results and graduated from Hands on Healing Institute in 2006 where she continued her studies in Deep Tissue Massage. The combination of personal training and deep tissue massage kept Rosa very busy. In 2008, she traveled to Belize to study Maya Abdominal Massage with Dr. Arvigo. This massage benefits digestion, menstruation, fertility, pregnancy, labor, postpartum and menopause. It has become her passion to empower women with this knowledge in order to avoid unnecessary pain and suffering.

Andrea Schally, CMT #4325 and Aromatherapist

Andrea is our Associate Director and in charge of our MT500 and Aromatherapy programs. She is a certified Aromatherapist born in Austria and practicing in the United States since 1994. Andrea concentrates on healing with essential oils by revealing and unblocking physical, emotional, spiritual and mental imbalances in order to achieve homeostasis and restore the body's health. She has been studying essential oils for over 20 years and her knowledge of essential oils and their uses is extensive.

Cynthia Ameson, CMT # 35955

Cynthia first came to HHI in 2011, having been touched—that is, deeply moved—by the healing power of massage therapy, and seeking to share this touch with others. Already certified in Reiki and a long-time metaphysical practitioner, she sprinted through her 500 hours to MT certification within a year, exploring a number of modalities including Deep Tissue, Myofascial Release, Craniosacral Therapy, and Aromatherapy. Over her years of study she has found that although every modality she has encountered is unique in its approach to healing, the core is always the same—the fostering of healing through safe, loving, connective touch, whether that touch physical, mental, emotional, or spiritual. Now, in addition to her own bodywork practice and running metaphysical workshops, she teaches the Kinesiology & Deep Tissue Track at HHI with Eloise Albrecht—a modality which, in her opinion, is the ideal marriage of the instinct and the intellect for crafting deeply moving touch. As a teacher, her aim is to help you find the shape that fits you best—to tailor the learning and the technique into a form that is optimal to you

STATE CERTIFICATION

Certification through the California Massage Therapy Council (CAMTC) entitles you to work as a *Certified* Massage Therapist (CMT) or *Certified* Massage Practitioner (CMP) throughout the state. The CMT category requires a minimum of 500 hours of massage education, while CMP category requires only a minimum of 250 hours. No new CMP will be issued after 1/1/15. Students must apply for state certification on their own through the CAMTC (www.camtc.org). Attendance and/or graduation from a California Massage Therapy Council approved school does not guarantee certification by CAMTC. Applicants for certification shall meet all requirements as listed in California Business and Professions Code sections 4600et.Seq.

CALIFORNIA LICENSING REQUIRMENTS

With an HHI certificate of completion, you can still choose to obtain/maintain a local permit, but you may not use the professional title of “MP”, “MT”, “CMP” or “CMT”: without state certification. Also, certification is not to be confused with licensing. Some licensing still occurs at the individual city and county level, and varies from city to city and county to county. Many cities are now requiring 500 hours of training and State Certification in order to get a business license. Students are responsible for researching, determining and meeting their particular area requirements. Students that wish to get licensed in areas that require more than 250 hours or who wish to achieve “CMT status through the state, may accumulate additional hours by taking continuing education courses

SEXUAL HARASSMENT POLICY

As a student at HHI if you feel you have been sexually harassed by means of inappropriate language, touch or behavior on the part of another student or member of the HHI staff, you are encouraged to submit a written dated complaint to the administration as detailed in the Complaint Procedure above. Complaints may be submitted in a sealed envelope to anyone in the administrative office and it will be forwarded to the Director or Associate Director. An interview will be scheduled at the earliest date possible to investigate the complaint. The alleged offender will be contacted and an interview scheduled. In many cases that sexual inappropriateness may be a matter of ignorance about social behavior and as such HHI strongly suggests counseling as a first course means of action in hopes that an understanding of boundaries in therapeutic contact can be established. Repeated offenses will result in requesting that the student voluntarily withdraw from the program with appropriate tuition refunds as described in the catalogue or involuntary expulsion from the program. The context of this policy is one of compassion. We believe a person who is not able to respect sexual boundaries may not be able to successfully practice massage, may bring psychological or emotional harm to another human, or may themselves be held legally accountable for their actions. It is our hope that any of these outcomes might be prevented by the implementation of this policy.

SUBSTANCE ABUSE POLICY

Illegal drugs or alcohol are not permitted on HHI premises during operational hours of the school. It is not the intention of HHI to dictate anyone's lifestyle or interfere with anyone's freedom of choice but it is our belief that entering into a therapeutic relationship with someone under the influence of mind altering substances is a breach of trust and compromises the learning experience for students in the role of both therapist and client. Anyone under the influence of illegal drugs or alcohol during school will be asked to leave the premises. Repeated offenses may result in the students' voluntary withdrawal or expulsion.

RE-ENTRANCE

Students who have been dismissed for any of the previous reasons may be reinstated only after an interview with an administrator. Reinstatement is up to the discretion of the Director.

STUDENT TESTIMONIALS

“This has been a profound experience for me on so many levels: a rich body of knowledge combining practical information with philosophy, relationships with wonderful new people, and much love and fun.”

Laila Cusick, Pasadena

“I feel confident and ready to start my business and know if I ever have any questions that I can call any instructors to get answers.”

Gary Casias, Pasadena

“The feeling I got when I walked in the first day was of excitement and compassion. I knew this is where I wanted to study. I was truly blessed to be a part of this school and walk out of here with an open heart and the knowledge to find success in this world.”

Shannon Passaglia, Burbank

“I found myself immersed in and completely embraced by the school. I was taught extremely well to touch with care, responsibility and skill. The teachers are highly effective at creating an enjoyable and inspiring environment as well as providing a comprehensive and well designed program.”

Rebecca Clark, Tujunga

“After 20 years of being away from school, I couldn’t believe it could be this fun! Now I can walk with my head high knowing I have accomplished something that no one can take away from me. I am now a “certified massage therapist”. Thanks to Hands On Healing for all their help and support.”

Cris Nery, Alhambra

“This school teaches more than massage techniques. I leave here with a new perspective on life and people and a greater respect for the soul.”

Tamara Masuda, Castaic

“My learning experience at Hands on Healing Institute, taught me the language of touch, and has allowed me, through the teachers’ example, to reach into my heart and find compassion, to be sensitive to another person’s pain (physical/emotional/spiritual) and ways to help relieve it. I have learned to communicate nonverbally with greater sensitivity, to develop more inner awareness, and increase my intuitive capacities through touch. I am grateful.”

Pat Chelsea, Arcadia

“I have been searching for a new journey to take in my life. HHI has helped direct me on my new path. It has opened several doors that I never knew existed. I’m really enjoying this new path.”

Teryl MacDougall, La Canada

“Far beyond my wildest expectations, this class was an amazing exercise in personal growth, expanded awareness, and self-healing, not to mention one of the most empowering and humbling experiences I’ve ever had. I’m so grateful to all my teachers!”

Jennifer Holden, Glendale

“This school was everything I expected it to be and way more! The teachers are very compassionate and passionate about the school and bodywork. They truly want you to succeed and knew what they taught. While maintaining a great sense of professionalism, I still felt like they were all my friends to where I could give them a big hug. I learned so much and I don’t want to stop! I think I want to take every class they have to offer!!”

Kelly Estabrook

“I came in thinking I was only going to learn how to be a massage therapist. I never dreamed that I would learn so much about myself. To me, HHI is more than just a ‘massage school,’ it’s a place to learn about the person that was buried deep inside of me, and the person I can become! This school helped me get connected to *me*, which I have not experienced for a long time.”

Rosalynn Romero

“I loved all of it. It really changed me. It’s a very caring school and class. I’m so glad that I made the decision to come to this school.”

Rosie Alegria, Pasadena

“Strive with diligence and be a lamp unto yourself.” Buddha
